ABOUT US

Tim Messer Construction Inc. (TMC), & Messer Logging, Inc. (MLI), are both family run corporations operating within the state of California. MLI was originally founded in 1953 and focused primarily on the logging industry in the eastern foothills of California. In the 90's TMC was established with a focus more on demolition, excavation and construction services. Tim Messer, with over 40 years of experience, has established an outstanding track record for high quality, safety, and ethical practices for both companies.

CORE COMPETENCIES

In most recent years, TMC has performed the majority of our services. TMC has focused on rehabilitation projects with larger firms such as Southern California Edison, as well as the USDA Forest Service. Some examples of these projects include:

- Forks Campground Rehabilitation (USFS)
- Rancheria Campground Rehabilitation (SCE/USFS)
- Princess Campground Rehabilitation (USFS)
- Falls Beach Day Use Area (USFS)
- Pinehurst Barracks (USFS)
- Various USFS Bridge Rehabilitation Projects
- Willow Creek Gauging Station (SCE)
- Power House #2 Improvements (SCE)
- Stevenson Creek Bridge Rehabilitation (SCE)
- 7 Hill Canyon Road Reconstruction (SCE)
- Big Creek Waste Water Treatment Plant (SCE)
- Upper 7 Site Preparation (SCE)

The above projects highlight our specialty in large scale rehabilitation projects. These projects encompass our expertise in demolition and excavation, installation of utility infrastructure, site preparation as well as prefabricated building installation.

SUPPLIER DIVERSITY FOCUS

Tim Messer Construction, Inc. is proud to be a certified minority owned business. We have not only intentionally teamed with other Diverse Business Enterprises, Ex: Lobo Corp (MBE) & Sierra Welding and Fab. (DVBE), but we are mentoring qualified companies in gaining their certifications for supplier diversity!

CLIENTS INCLUDE

- Southern California Edison
- USDA Forest Service
- The Bratton Group
- County of Madera
- County of Fresno
- Pacific Gas & Electric
- Sierra Forest Products
- Various Other Private Developers
